Dear Ms Kronstadt:

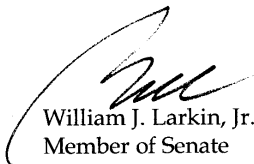

Thank you for your interest in my position on a number of issues included in your Candidate Questionnaire. For many years I have worked to insure that the interests of your organization are addressed in the legislature.

However, it is my policy not to fill out questionnaires in that they tend to limit responses to complex issues facing the State of New York and your organization. "Yes" or "No" answers and short responses to other questions simply cannot capture the total essence or resolution of an issue.

It's no secret in Albany that throughout my 28 years in the Legislature, I have supported and fought for the needs of my constituents and their families and have worked to assure a better quality of life for our citizens.

My record in the Assembly and Senate is clear and I stand on it. Thank you for your consideration.

Sincerely,

William J. Larkin, Jr.  
Member of Senate
